

STATE OF CALIFORNIA

CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD

Base Year Modification Request Certification

Part 2: Generation Study - Includes Extrapolation of Residential or Non-Residential Diversion Data

To request a substitution for a previously approved base-year used in calculating the diversion rate for your jurisdiction, please complete and sign this form and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 341-3199 to be connected to your OLA representative.

Mail completed documents to:

California Integrated Waste Management Board
Office of Local Assistance
1001 I Street, 9th Floor
PO Box 4025
Sacramento, CA 95812-4025

General Instructions:

Please select the ONE choice below that best explains your request to the Board.

1. Use a recent generation-based study to calculate our current reporting-year generation amount, but not officially change our existing Board-approved base year.
2. Use a recent generation-based study to officially change our existing Board-approved base year to a new base year.

The shaded cells on these sheets are protected. If you have problems using these sheets, please contact your Office of Local Assistance representative.

Section I: Jurisdiction Information and Certification			
All respondents must complete this section.			
I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of:			
Jurisdiction Name San Diego County - Unincorporated Areas		County San Diego	
Authorized Signature 		Title Recycling Coordinator	
Type/Print Name of Person Signing Wayne Williams	Date 2/20/05	Phone (858) 874-4108	
Person Completing This Form (please print or type) Wayne Williams		Title Solid Waste Management and Recycling Director	
Affiliation:	San Diego County		
Mailing Address 5469 Kearny Villa Road, Suite 305	City San Diego	State California	ZIP Code 92123
E-mail address wayne.williams@sdcounty.ca.gov			

Section II: Information for New Generation-Based Study

Attach additional sheets if necessary— reference each response to the appropriate cell number (e.g., 4).

Note: New base years must be representative of a jurisdiction's disposal and diversion.

1. Current Board-approved existing base-year:

1990

2. Proposed new generation-based study year:

2002

3. Explain how the proposed generation study year is representative of average annual jurisdiction disposal and diversion:

This new generation number reflects the current disposal and the diversion practices in the year 2002. The number of residents and commercial businesses in the jurisdiction has grown considerably. As a result, the amount of C&D waste has also increased. Eight new C&D facilities operate in San Diego County since 1991 and one of the existing ones started recycling inert materials in 1995. The Department of Public Works - Roads Division began several waste diversion programs since 1990 as have the major landfills in the County. This dynamic change in the jurisdiction makeup was not accurately reflected in the initial study conducted in 1990. Equestrian centers and golf courses, which were not represented in the 1990 Base Year Study, continue to be a significant part of the waste stream. In addition to the growth, the City has implemented, and maintained numerous diversion practices in the last twelve years. These programs are now appropriately reflected in the new diversion study.

4. Enter your diversion rates below.

Diversion rate calculated using existing base year		Diversion rate calculated using new generation-based study	
a. 35%		b. 51%	
For existing base year pounds/person/day based on generation		For new generation based study pounds/person/day based on generation	
9.0		14.1	
Residential generation 38%	Non-Residential generation 62%	Residential generation 14%	Non-Residential generation 86%
Population existing generation-based study 398,734		Population new generation-based study 454,900	

5. If there is an increase between 4a and 4b, please explain how the new diversion rate is consistent with your current diversion implementation efforts. If the proposed new generation tonnage results in an increase in your pounds/person/day, please explain how this is consistent with your current diversion implementation efforts and provide examples, e.g. change in jurisdiction's demographics.

The County unincorporated experienced huge growth in construction activities between the time of the original base year and the new base year. New programs were put in that diverted construction and demolition waste that was not adequately accounted for by the CIWMB Adjustment Method. The increase in construction added to the overall generation and the accompanying diversion activities were not accounted for in the original base year study. Eight new construction and demolition recycling facilities that process wastes were sited and recycled waste from the County unincorporated area, while one of the existing facilities began recycling inert materials in 1995. The County has expanded and improved diversion programs continually.

6. If the difference between the proposed diversion rates in 4a and 4b is greater than 5 percentage points, please explain the specific reasons for the difference. (For example: new/improved curbside diversion programs.)

The County unincorporated experienced huge growth in construction activities between the time of the original base year and the new base year. Eight new construction and demolition recycling facilities that process wastes were sited and recycled waste from the County unincorporated area, while one of the existing facilities began recycling inert materials in 1995. The County has expanded and improved diversion programs continually. The new diversion rate also is indicative of the new and expanded programs implemented under the 1066 extension.
